Data Source: Statware Screens 0100, 6000 (84), 1320
 * UNIV includes hours taught by library, counseling center, & stud. services
 Note: New students by level consists of students who are new to the university plus continuing students new to the level (graduate). A student changing from a masters program in one college or department to another college has not changed levels and would not be considered a new student under this classification. A student who received a bachelors degree from Georgia State and now is enrolled in a masters program would be considered a new student. This is the system (BoR) definition of new students. For workload involving the number of applications processed by each unit please refer to Screen 3620. Numbers from 6000 (84) will always be smaller than from 3620.
