

Approval List for Broadcast Messages/PAWS Announcements

The president of Georgia State University or his designee supersedes all other approvals; this means if it comes from the president's office, it does not need approval from any other area.

All broadcast messages sent from University Relations will be processed as a Critical Request.

Messages that will be broadcast to students must be approved by the vice president (VP) for student affairs or the designee for the Division of Student Affairs. ***Messages that will be broadcast to students concerning Enrollment Services (e.g., Registration, Financial Aid, Student Advisement) must be approved by the designee of the associate provost for undergraduate studies.**

Messages that will be broadcast to faculty and/or staff must be approved by the unit head or designee from the department of which the submitter of the request is assigned or reports.

Messages that will be broadcast to students, faculty and staff must have two approvals: (1) from the vice president for student affairs or the designee for the Division of Student Affairs and (2) from the unit head or designee of the department of which the submitter of the request is assigned or reports.
