

Georgia State University

## *Listserve For Majors*

Darlene Ward-Wright (09/26/2008)  
Information Systems and Technology  
Georgia State University  
Atlanta, GA 30303

## **1.0 Scope and Objective**

Email distribution lists for students in a college, academic department or major are available to the Deans or Department Chair of the respective college or department. The email distribution lists are one way to the students official campus email addresses ([campusid@student.gsu.edu](mailto:campusid@student.gsu.edu)) and do not provide for an interactive discussion forum.

The Dean of the College is the moderator of the college's email list and approves email before it can be distributed to the list. The Chair of an Academic Department is the moderator of the department list as well as the major email lists for the department and approves email before it can be distributed to the list.

The College, Department and Major email distribution lists are specified in Appendixes A, B, & C.

## **2.0 Responsibility for Implementation**

The Information System & Technology Department is responsible for the implementation and overall maintenance of this procedure.

## **3.0 Procedure**

Any questions or difficulties with the procedure should be directed to the Help Center at (404) 413-4357.

Messages can be sent to the lists from any email client. It is recommended that message be text or HTML only. Attachments are allowed, but they are not recommended as the student may not have the necessary software to view the attachment. Attachments are limited to 2 MB or less.

1. Send email to: **listname@programs.gsu.edu**.
2. The moderator will receive a moderation request to approve or deny the request. Click on the link embedded in the email:

As list administrator, your authorization is requested for the following mailing list posting:

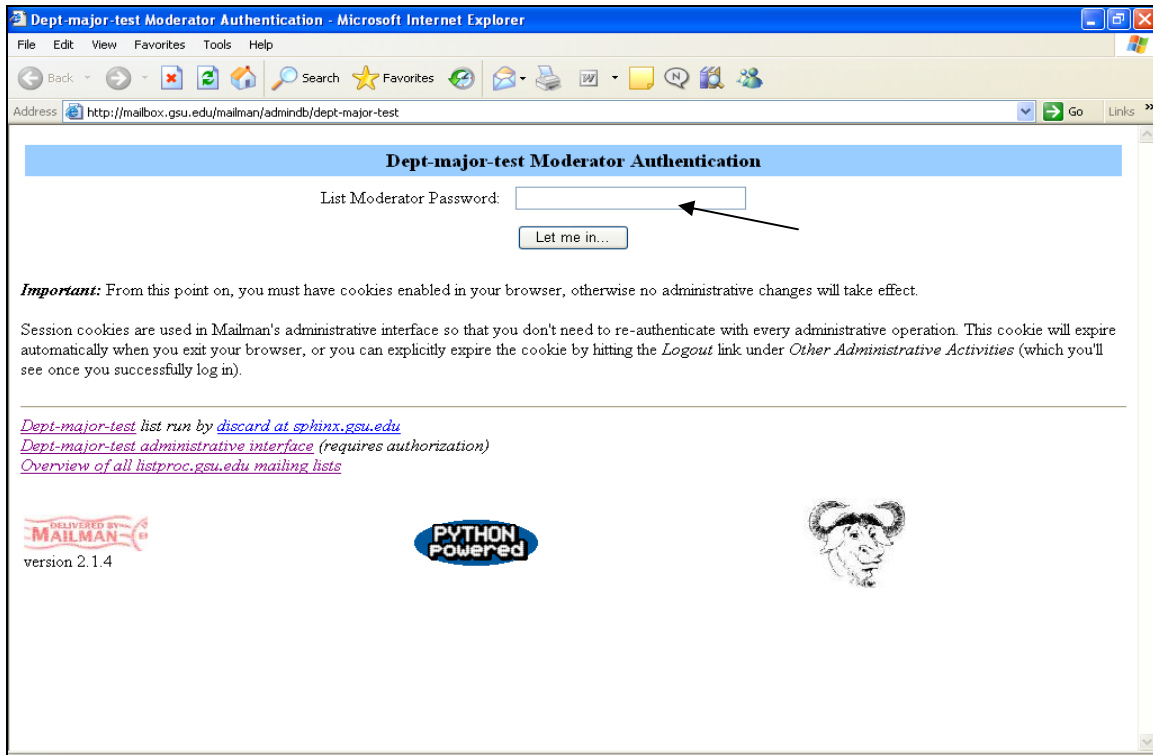

List: [Dept-major-test@listproc.gsu.edu](mailto:Dept-major-test@listproc.gsu.edu)  
From: [hcsdww@langate.gsu.edu](mailto:hcsdww@langate.gsu.edu)  
Subject: test  
Reason: Post by non-member to a members-only list

At your convenience, visit:

<http://mailbox.gsu.edu/mailman/admindb/dept-major-test>

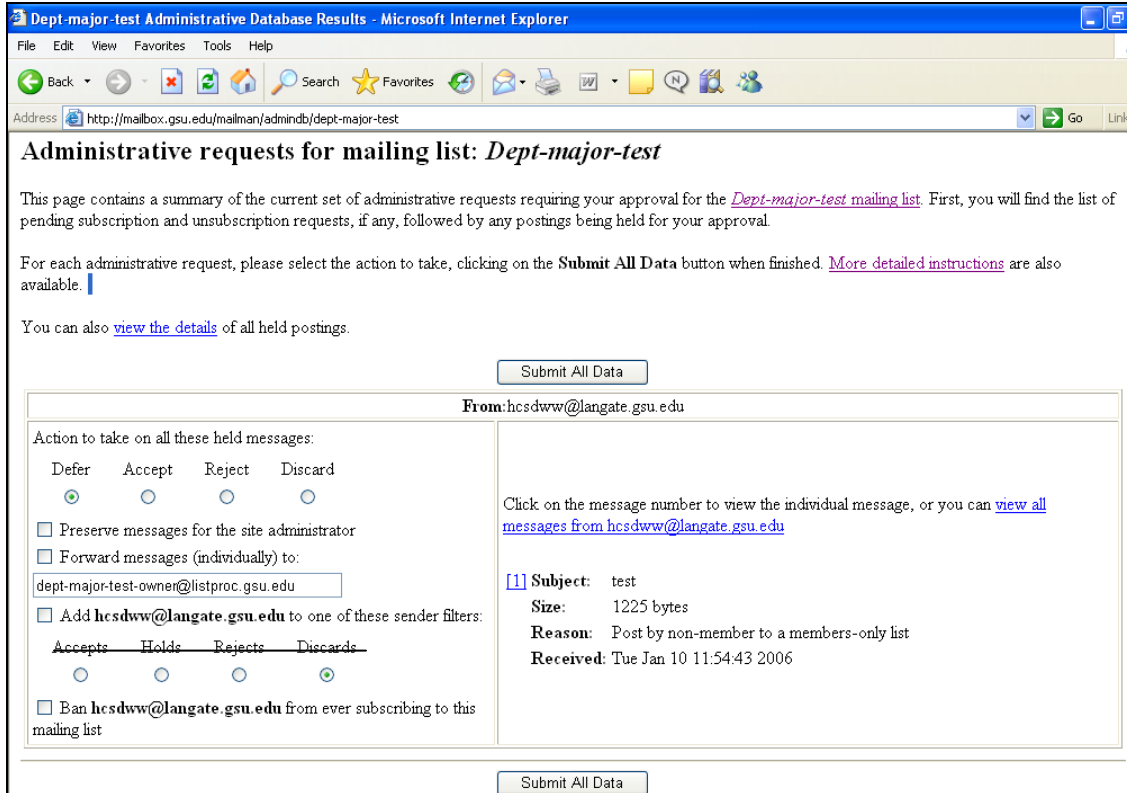

to approve or deny the request.

- The link will bring up the **Mailman “List” Moderator Authentication** page. Enter moderator password and click the Let me in... button. Moderator passwords were distributed in the original announcement. For password resets: Contact the Help Center at (404) 413-4357. **NOTE: Cookies must be enabled for your changes to be effective.**

- After the password is accepted, you will then see the Administrative Requests for mailing list:

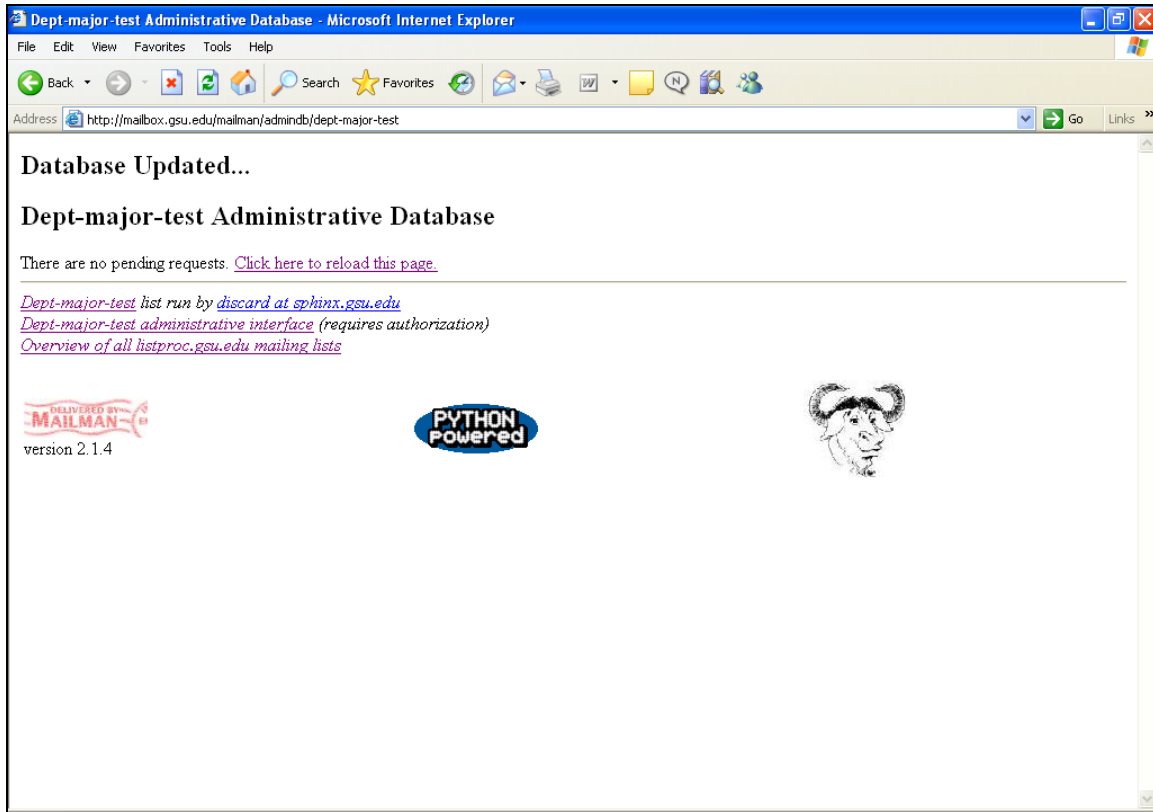

This page will contain a summary of all administrative requests requiring approval for this particular list. The administrative requests are displayed in one of two ways, on a summary page, and a details page. The summary page contains postings being held for approval, grouped by sender email address. The details page contains a more detailed view of each held message, including all the message’s headers and an excerpt of the message body.

5. Detailed instructions for the administrative database. Use the options listed below except Sender Filters. (There is not a need to use the Preserve or Forward options).

- **Defer** -- Defer your decision until later. No action is taken now for this pending administrative request.
- **Approve** -- Approve the message, sending it on to the list.
- **Reject** -- Reject the message, sending a rejection notice to the sender, and discarding the original message. You should add a reason for the rejection in the accompanying text box.
- **Discard** -- Throw away the original message, without sending a rejection notice.
- **Sender Filters** -- **NOTE: DO NOT USE THE MODERATOR SENDER FILTER.** Selecting the “accepts” option allows emails to be posted without moderator approval. Even if you trust the messenger explicitly - email can be forged and an inappropriate message could be posted to the list. **ALL MESSAGES MUST BE APPROVED BY THE MODERATOR.**

6. Once the appropriate action has been taken, click the “**submit all data**” button. Moderators will be joined to the list, therefore if the request is accepted, you will receive the distribution email as confirmation of the list update. If you do not receive the confirmation email within 2 hours, please contact the Help Center at (404) 413-4357.

7. All requests to change the list moderator must be approved by Tim Renick. The Help Center will send out the following script in response to any request for moderator changes:

"Thank you for your request. All moderator changes should be directed to Tim Renick, Associate Provost for Academic Programs ([trenick@gsu.edu](mailto:trenick@gsu.edu)). Normally, requests for moderator substitutions will not be approved unless a compelling variance is provided. This policy has been established in order to ensure that chairs moderate all email sent to students and to produce a manageable workload in the early phases of the project. If the chair is not available to post the message to the list, the Dean or Associate Provost for Academic Programs will send it to the Help Center for posting. As an alternative to having a second moderator, a chair could appoint any person in the department to draft e-mails to students. That person would forward the e-mail to the chair who in turn posts it to the list."

If the request is approved, Tim will send the approval to the Help Center for completion.

8. ‘End Solution’

## Appendix A – Colleges
