How has University Career Services helped you?

“University Career Services has helped me obtain interviews from different employers that seek GSU students. The center also provided me the tools needed to strengthen my interviewing skills and to improve my resume.

By constructive feedback, the center was able to help me improve the process of job hunting. Furthermore, it gave me a chance to network with different people, which allowed me to grow professionally. I believe the results I have today are directly related to the services I received from the University Career Services at Georgia State University”.

How has UCS helped you?

“I haven't gotten to where I want to be just yet, but since I came to GSU the UCS is what kept me on my feet. Just knowing that there are so many options available by using the online site gave me the drive and got me my first stepping stone to my future here in Georgia. It was even better when I got to know the people behind all the information I was gathering, because they took an active interest in encouraging me to "work the system" and gave me many opportunities to network with employers through their events. I have had my resume critiqued to the point that one potential employer wanted to copy it and show it to her son as an example, and I owe that to the resume critique services who gave me the tools and feedback I needed. I could go on for days, but I am ever grateful for the UCS. I wish every student would take advantage of these wonderful services and opportunities, and I hope that they keep up the good work and can expand even more to do greater things”!

“Successful and unsuccessful people do not vary greatly in their desires to reach their potential.” Career services has helped me in so many ways such as resume critiques, mock interview sessions, employer information sessions, networking and most of all leading and guiding me to a great opportunity through my internship. If not for Sanford Dennis and Ramona Simien, I would not have known what career path to choose or pursue”.

“I think your center helps me a lot in the whole process of my job hunting. From resume preparing, mock interview to job fair preparation, I gained a lot useful experience here. I think the information sections, job fair and panther career online system provide excellent opportunities for us to interact with potential employers. Submitting my resume through our panther career system has much higher feedback rate than Monster or Career-Builder. It is a awesome resource”.
