General Evacuation Procedures

When evacuating a building or work area:

- Stay calm; do not rush and do not panic.
- Safely stop your work.
- Gather your personal belongings if it is safe to do so. (Reminder: take prescription medications out with you if at all possible; it may be hours before you are allowed back in the building.)
- If safe, close your office door and window, but do not lock them.
- Use the nearest safe stairs and proceed to the nearest exit. Do not use the elevator.
- Follow any instructions from emergency responders.
- Do not re-enter the building or work area until you have been instructed to do so by the emergency responders.
- Move to the established Assembly Area and ensure accountability of building personnel is conducted in a timely manner

Emergency Evacuation Guidelines for People with Disabilities

- Building occupants should be invited to volunteer ahead of time to assist disabled people in an emergency. If a volunteer is not available, designate someone to assist who is willing to accept the responsibility.
- Volunteers should obtain evacuation training for certain types of lifting techniques.
- Two or more trained volunteers, if available, should conduct the evacuation.
- DO NOT evacuate disabled people in their wheelchairs. This is standard practice to ensure the safety of disabled people and volunteers. Wheelchairs will be evacuated later if possible.
- Always ASK someone with a disability how you can help BEFORE attempting any rescue technique or giving assistance. Ask how they can best be assisted or moved, and whether there are any special considerations or items that need to come with them.
- Before attempting an evacuation, volunteers and the people being assisted should discuss how any lifting will be done and the evacuation path that will be followed.
- DO NOT use elevators, unless authorized to do so by police or fire personnel. Elevators could fail during a fire.
- If the situation is life threatening, call University Police at 404-413-3333.

Fire

Evacuate as soon as you hear the fire alarm. A building occupant is required by law to evacuate the building when the fire alarm sounds.

If there is an actual fire or visible smoke:

- First, notify the Fire Department by pulling the nearest fire alarm (pull station) and, from a safe distance, call the University Police at 404-413-3333 or 911 to provide details of the situation.
- If you have been trained in the use of a portable fire extinguisher and are able to safely extinguish the fire, you may do so. Be sure you have a safe exit from the area and leave if one extinguisher does not put out the fire.
- Evacuate the building as soon as the alarm sounds.
- On your way out, warn others nearby.
- Move away from fire and smoke. Close doors and windows if time permits.
- Touch closed doors. Do not open them if they are hot.
- Use stairs only; do not use elevators.
- Move well away from the building.
- Do not re-enter the building or work area until you have been instructed to do so by the emergency responders.
