University System of Georgia System students are responsible for registering under the proper tuition classification. In general, classification of in-state status for tuition purposes requires an individual to have established legal residency and domicile in Georgia for 12 consecutive months prior to enrolling.

Residency is defined as "the state and country where an individual currently lives. An individual may be residing in Georgia and may be classified as having established Georgia residency for securing marital status, a driver's license, or classification of taxpayer status but does not meet the qualifications to establish domicile in Georgia."

Domicile is defined as "a person's present, permanent home where that individual intends to stay indefinitely and to which that individual returns following periods of temporary absence. Temporary residence does not constitute the establishment of one's domicile. To acquire domicile, an individual must demonstrate intent to remain permanently or indefinitely."

According to the definitions above, have you established and maintained legal residency and domicile in Georgia for at least 12 consecutive months immediately preceding the first day of classes for the term in which you plan to enroll? Yes No
