| 42 | The Top American Research Universities ⁸ (Public Universities) | Top 200 | Top 200 | Top 200 | NA | NA |

¹ Large increase in % of minority student groups from prior years can be attributed to federal restructuring of self-reported race/ethnicity categories. Students with two or more reported races are included in these minority percentages. Figures do not include international students.

² Amount reflects the total alumni of record

³ Source of data: Council for Aid to Education, Voluntary Support of Education Survey (Office of Development)

⁴ Not available until end of FY 2010 (June 30,2010)

⁵ Source of data: Figures provided by Vice President for Finance and Administration

⁶ Amount does not include fees or value of fee waivers

⁷ FY 09 housing costs include average room and board. Previous years included only average room rates.

⁸ Source of data: The Center for Measuring University Performance at Arizona State University. Data presented in the report lags two years. For example, the 2008 annual report contains data on total research expenditures for the 2006 fiscal year.
