What do you think is the single most important issue for staff at Georgia State University right now?
Staff Development

How would you address that issue as a staff senator?
Currently work with Staff Council - Staff Development Committee as a non-voting member of the group and would like to get more involved in this group in creating additional staff development opportunities.

Please list two or three other issues that are priorities for you.
Recycling
Health/Fitness

Which two Senate committees would you most like to serve on and why?
Staff Development – I think we could add to the current staff development options.
Sustainability – Currently serve on the Environmental Programs Advisory Committee (EPAC) and could serve a liaison between that group and the Staff Council to ensure we are all on the same page.

Please list your service to the University:

Member of the Environmental Programs Advisory Committee (EPAC)
Member of the Laboratory Safety Committee (LSC)
Member of the College of Arts and Sciences Staff Development Committee
Member of the College of Arts and Sciences Executive Committee

Of all the service projects you've been involved in, which one makes you the proudest?
Describe what the group accomplished and what your role was.
Being part of EPAC and LSC has been great. It has allowed me to play an active role in keeping Students, Faculty, Staff, and the General Public safe by recommending safety procedures when working with chemicals.

Is there anything else voters should know about you?
I am a proper football fan, and support the Arsenal!!! Go on you Gunners!!!
