

WASTE DISPOSAL RADIOACTIVE- SOLID WASTE PROCEDURES

The following procedure refers to radioactive waste only (not chemical or biological/medical waste).

1. Keep your radioactive waste containers clean, in good condition, and make sure they are securely closed at all times.
2. Make sure your radioactive waste does not contain hazardous chemicals.
3. When a stock solution has been used up, place the yellow sticker on the container.
4. Place all radioactive contaminated solid materials in the provided waste container.
5. When your radioactive waste containers are full please call the Radiation Safety Officer at (ofc) 404-413-3540 or (cell) 404-227-7472
6. If you require replacement supplies indicate this when you call the RSO at 3-3540.

For questions or concerns contact the Radiation Safety Officer: 3-3540
